

I/O terminal block marking options

Current marker carrier

- 750-100 marker cards
- 709-178, 709-177 marker strips

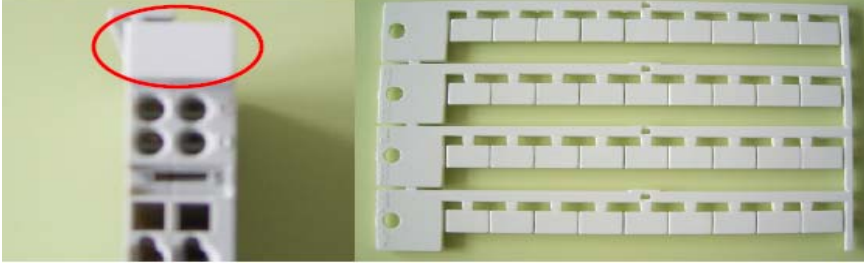

NEW

Marker adapter fits into the mini-wmb carrier

- 750-103 marker carrier
- 709-178, 709-177 marker strips
- 750-100 marker cards

NEW

Marker cards for marking of the head of the I/O terminal blocks, are an alternative to the current marking solution using mini-wmb markers. Marked using our plotter system and the appropriate carrier plate.

Marker Cards
211-211—36 markers/card

Carrier Plate
258-371

NEW

Another alternative for marking the head of the I/O blocks is using a marker carrier and a marker strip. The marker carrier fits into the mini-wmb carrier.
